PARIS HOTEL REVIEW: MOB HOTEL SAINT OUEN FLEA MARKET BEST KEPT SECRET

2

Mob hotel is located in 5 minutes from the most popular flea market in Paris at Saint Ouen. Les Puces de St. Ouen as we say in French is the best place to wander

Les Puces de St. Ouen as we say in French is the best place to wander around for vintage, the unusual and the luxurious items to fill your home, wardrobe or that special place in your heart.

Par myparisianlife

The CONCEPT

A true taste of France; Local french cheese and wine – hand picked and hand delivered.

BAG INCLUDES:

* A traditional baguette bread (fresh-baked that day)

* A selection of french cheeses (that pairs well with the wine)

* A bottle of accompanying Wine

* A special curated 2017 best of Paris paper Map

*A bag of Roasted Coffee beans from one of our partner brands

* A beauty product from one of our partner brands

* A canvas bag to keep all your goodies

You can wander around like a local with our Best of Paris

Mob hotel plays on the idea of being a bit on the outskirts – or rather a bit of an outsider in the hotel scene by creating a home much like within a "mob", a bit rebellious, but smartly organized to develop and create its own sub culture and strong identity. #communityfirst is the order of the day here judging from the mix of cultures and designs.

This massive hotel has many different size rooms for solo travelers, families and business class types. If you're coming to Paris, Mob hotel will certainly stand out as a trendy haven to stay close to the Flea Market of Saint Ouen.

It's a home away from home that will make you feel like family with their friendly staff, comfy queen size beds, terrace rooms, rooftop gardens, organic food restaurant and fast wi-fi.

The Mob hotel I discovered is so much more than a place to rest your head. It's a refuge from the typical Parisian hotels that indeed are more centrally located, but what they lack in geographical proximity to the other well known Parisian touristy spots they more than make up for in creating an artistically cultural home in Saint Ouen.

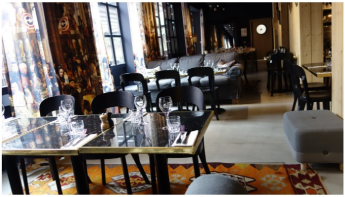
DECOR:

A mixture of one part smart (they have a library) and one part fun (the foosball machines and DJ booth)

From the restaurant's curtain with figures of Amy Winehouse, Bill Clinton and Haile Selassie, you won't help but be pleasantly surprised in the details of the decor.



OUTSIDE:

This was an overhead shot from one of the terraces – the one with fruits and vegetables – looking down at the dining area and then the Outdoor screening area.

As soon as you push back the big orange door, you'll be surprised at how much yard space there was and greeted by a massive outdoor movie screen – what !! Hello, summer!!

2017 city guide map (printed)

You can eat the food while in Paris (night in or picnic) , and take the goodies with you back home (souvenirs or gifts).

We welcome you at a set location upon your arrival to Paris, so you can enjoy right away a relaxing night as you unpack or day you can take the bag out to picnic.

Perfect if you're looking for a convenient and authentic taste of Paris.

A Great Gift idea for any one new to Paris!

All in a reusable "trendy" canvas bag.
